

People at CTG

G. Brian Burke
Managing Director

Specialty

- Cross-boundary and transnational knowledge and information sharing networks
- Assessing the value of government information technology investments
- Government information management strategies

Brief Bio

Brian is managing director at the Center for Technology in Government, University at Albany, State University of New York. He is responsible for ensuring that Center operations support the CTG mission and the strategic goals of the University at Albany. He works closely with governments at all levels in the United States and internationally helping them develop better policies, management practices, and information and communication technologies that improve performance and services.

Brian also serves as vice president of the University at Albany chapter of Phi Beta Kappa. In this role, he helps identify the most outstanding arts and sciences students for induction into the nation's oldest academic honor society.

Previously, Brian worked for AT&T Government Solutions in the Office of the U.S. Secretary of Defense. Prior to that, he served as an officer in the United States Air Force.
