

People at CTG

Jim Costello
Web Application Developer

Specialty

- Web applications
- XML
- Database programming

Brief Bio

Jim is responsible for bringing dynamic and interactive features to CTG's Web site and other Web projects. As such, he incorporates SQL, XML, and Java components into Web applications and pursues other promising new technologies.

Jim brings 20 years of experience to CTG, which he joined in 2001. His expertise lies in innovative uses of technology for information sharing and education. He combines strong technical skills with a background in communications and training to support and enhance a variety of CTG projects and general operations.

Prior to joining CTG, Jim had his own Web design and development company and worked for several private and public organizations, including KeyCorp, the Professional Development Program of Rockefeller College, Coopers & Lybrand, and the Office of Data Processing, Human Resources Administration, City of New York. He has been an editor, technical writer, trainer, computer-based training designer, and manager of Web applications and distance learning.
