Updated Making Smart IT Choices Designed to Help Maximize Government Technology Initiatives

CTG's latest resource, Making Smart IT Choices: Understanding Value and Risk in Government IT Investments, provides public sector managers with practical methods to gather and assess the information they need to reduce the risks and maximize the benefits of their next IT investment. Smart IT, based on ten years of partnership projects at CTG, includes a framework for building a sound business case for government IT projects. The guidebook is available at <http://www.ctg.albany.edu/publications/guides/smartit2>.
